To,

Mr. Anil,  
M/s. Blue Bell Engineering Services,  
Bangalore.

**Sub :- Testimonial for your services**

**Dear Sir,**

We are architects involved in the design of residential projects such as independent bungalows, villa developments and apartment housing. We are well established and have completed over 400 projects over a span of 13 years.

We had originally purchased the CAD software from a reseller. Due to bad support, we had discontinued the use of the software. When we contacted Mr. Anil recently, he got the license information of the software which is over 6 years old within a day and had the installation complete within 2 days. His staff is available on call anytime and has solved all issues. Not only has Mr. Anil activated the software, he has also saved a substantial amount of money for us as we did not have to go for more expensive alternate software.

We shall definitely recommend Mr. Anil amongst our contacts as he provides excellent support apart from sales.
